jonoliver.github.io

Summary

A full-stack software developer focused on building responsive, intuitive web applications

Qualifications

- Experience working in a team environment as both a developer and technical lead
- Focus on delivering clean, maintainable, well tested code
- Extensive experience with client and server side web development
- Experience with continuous integration, build automation and deployment
- Understanding of web security practices and standards
- Experience developing application features in an agile, iterative environment

Employment

SOFTWARE DEVELOPER   **POMIET, LLC**   **2014 - PRESENT**

As a Developer, I work with clients to build intuitive web applications to help customers enroll in health insurance plans, process enrollments, and integrate with internal/external systems. Duties include: Collaborate with Project Manager, UX Designers and QA Testers to plan, build and deploy application features. Implement client and server side web functionality. Write unit, integration and user acceptance tests.

As a Technical Lead, I lead a development team and act as technical liaison between the team and clients. Duties include: Automate build/test/deployment processes, implement analytics and reporting, deliver feature estimates, perform code reviews

Tools: Ruby on Rails, Sinatra, Node.js, Meteor, MySQL, MongoDB, Passenger, NGINX, Git

WEB DEVELOPER   **WORKFLOW ONE**   **2007-2014**

Collaborate with Business Analysts to develop customer and business facing e-commerce solutions. Develop features for storefront and variable print-on-demand applications. Implement user and administrative interfaces. Integrate with internal systems.

Tools: C#, ASP.NET MVC, Angular, Ext JS, TSQL, IIS, TFS

GRAPHIC DESIGNER   **THE BERRY COMPANY**   **2002-2007**

Design print advertisements. Create graphics for print and web. Prepare art for printer specs.

Tools: Adobe Illustrator, Adobe Photoshop, Adobe InDesign

Education

ASSOCIATES DEGREE   **SCHOOL OF ADVERTISING ART**   **2000-2002**

Course of study included: Graphic Design, Illustration, Typography, Web Design, Animation
